It is no unfailing and spe tre for all Skin Diseases; it removes Tetter and Ringworm; preven alling of the Hair, and is a sure relief AND POTASH

THESE Celebrated AXES are made from the same quality of iron and steel that has be

used for the past fifty years.
Impress on your memory that each and every COLLINS AXE has from 12 to 18 Ounces of the finest quality steel INSERTED, making a keen edge that will wear fully four times a long as the edge of ordinary axes.

Farmers and those who use axes should bear in mind that COLLINS AXES are sold at prices which afford a fair profit to the retail dealer when retailed at the price of low grad] over-coated common axes. Request your merchant to keep them in stock, for you are entitled to have HONES?

AXES and value for your money.

Beware of axes sold with profuse guarantees "not to break." Such axes are usuall made of IRON, with a thin overcoating of steel at the edge, giving a sutting edge of butwo to four ounces. Such axes cannot break, but they are soon useless for cutting COLLINS AXES

It is a well-known fact that, with ordinary care, one of the COLLINS BRAND OF AXES will do good service for years.

stand to-day without a rival, and cost no more than common grades.

For information about a great variety of tools of extra quality for farms and plantations, COLLINS & CO., 212 Water Street, New York.
